

Sanctuary of Sound and Whispers

A time-out from the busy DDW program, this is a place to engage in communal creation: where the act of listening becomes a shared ritual.

Hosted by: Foundation We Are

Project Information (EN)

Step into the listening bar

"Sanctuary of Sound and Whispers" forms the 7th edition of Foundation We Are's event series Common Grounds. Set during Dutch Design Week, the event presents a listening bar reimagined as a chapel of sound, blending the communal energy of a bar with the intimate, hushed atmosphere of a listening experience.

The evening begins with participatory soundscapes, as guests and invited artists shape ambient textures. As the night unfolds, a live performance, followed by spoken word, music, or dance, signals a shift into curated vinyl DJ sets.

The music remains soft yet engaging, fostering conversation, movement, and a natural evolution of the space's energy. Here, the fatigue of the week dissolves into a ritualistic pause, where friends and strangers connect through shared sound, play, and quiet reflection.

With Adriaan de Man, Martin Hooke, Felix Bell, Lioba Benold, Olympe, and Samael Ceccotti.
