Project Information (EN)

E-learning? D-learning!

"E-learning! E-learning! E-learning!" When the pandemic hit, this was the reflex most schools and educators had. But is sitting behind a Chromebook the only way to learn outside of school? We think not. D-learning is our custom blend of design-based education; learning by braving wicked challenges, building solutions together and going out into the world. We design and develop tools to create rich learning experiences. During DDW21 we want you to experience the joys and benefits of D-learning, so come on by the canal.

Projectinformatie (NL)

E-learning? D-learning!

"E-learning! E-learning! E-learning!" Toen de pandemie toesloeg, was dit de reflex van de meeste scholen en onderwijzers. Maar is achter een Chromebook zitten de enige manier om buiten school te leren? Wij denken van niet. D-learning is ons geheime recept voor design-based onderwijs; leren door het trotseren van ingewikkelde uitdagingen, samen oplossingen bouwen en erop uit gaan. Wij ontwerpen en ontwikkelen tools om rijke leerervaringen te creëren. Tijdens DDW21 willen we je laten ervaren hoe effectief en leuk design thinking in leerprocessen kan zijn.
