Project Information (EN)

Get Set!

Dutch Design Week's theme "Get Set" stands for a new start, a new mindset, facing enormous challenges worldwide. We all want to be of importance, be part of a community and find new connections, for new opportunities. This asks for a new approach, a new mindset. Rethinking the creative business anew. Check in! We are checking in again, after a turbulent time, in which we all needed to rethink our businesses again; facing new and big challenges; to be able to continue the things we love and are good at. Joinanew will have dialogues with experts from the design field who will share their knowledge by sharing their expertise and experiences. Skill-up! The business of design is as relevant as what we are designing. Running your business doesn't have to be heavy, if you have a good gameplan. It is a skill that can be learned. Our ambition is to be at the forefront of a new movement that not only enables knowledge sharing, transfer and exchange in the creative sector, but also provides a boost and lasting value in the future, within national borders and far beyond.
