

Entropy Modulating Synthesizer EM_001

Entropy Modulating Synthesizer EM_001

Entropy Modulating Synthesizer EM_001

Hosted by: Aleksandra Fixl

Project Information (EN)

Real time-based translations of sound into image link those two factors as a single unit.

Using a button switch to evoke entropy and activates slide potentiometers to control filter, reverb, amplitude, and tweak other parameters, provides a synaesthetic explanation to the principles of modulation - - handling overall chaos and order level. The user of EM_001 synth manually controls the surroundings, and as such performs the role of a VJ that shapes his/her own experience.
