

Dutch Invertuals

Hosted by: Dutch Invertuals

Project Information (EN)

Flow

In our technology-infused society, every aspect of our life is being altered. We hardly even notice how far we have drifted off from our physical habitat and the things that are truly important. We have shifted towards a flow of data and information, disconnecting us from the valuable experiences that make life beautiful. Dutch Invertuals joined forces with designers Béla Bezold, Studio Edhv, Ralf Gloudemans and Teresa Fernández-Pello to create an experience.
