

Network Applied Design Research

Design Research Conversations: Applied Design Research in Experimental Learning and Innovation Environments
Design Research Gesprekken: Toegepast Ontwerponderzoek in Experimentele Leer- en Innovatieomgevingen

Hosted by: Network Applied Design Research (NADR)

Project Information (EN)

Design Dilemma's

Experimental learning and innovation environments such as living labs, fieldlabs and urban innovation labs, are increasingly used to connect multi-stakeholders in envisioning, creating, experimenting, learning, and trying out novel responses to diverse societal challenges. What is the unique contribution that applied design research(ers) may play and take in such learning environments? And how can we deliver on that promise? What are the challenges and dilemmas that designers may face in their contributions to these environments? During the session we will present and discuss how to navigate the following dilemmas: Open or Closed? Safe-zone or Real-life? Physical or Virtual? Transformation or Evolution? Fixed or Fluid roles? Discipline or Indiscipline? Present versus Future Realities? Schedule: 13.00 - Walk in with coffee 13.30 - Welcome and opening 13.40 - Pecha Kucha with authors briefly presenting their findings 15.15 - Interactive discussions. Each visitor picks one author/paper to discuss 16.30 - Plenary feedback session and closing 17.00 - Drinks!

Tracks

1. Opening and closing dynamics in/of experimental 'lab' environments (Wina Smeenck, Perica Savanović, Marieke Zielhuis & Daan Andriessen) 2. Bridging multi-stakeholder dialogue about AI systems in the lab (Tiwanée van der Horst, Anja Overdiek & Maaïke Harbers) 3. Experimenting with Novel Knowledge - A Plea for Communities of Practice (Koen van Turnhout & Daan Andriessen) 4. The Art of Connection - Crossing borders of safe zones (Jeroen van den Eijnde & Masi Mohammadi) 5. Shaping Transitions Together? Designers Doing More Than Experimenting in Living Labs (Anja Overdiek, Janneke Sluijs, Morgan Duta & Maria Arias) 6. Ceci n'est pas une prototype - Prototypes and idealtypes as representations of what works and what matters (Guido Stompff, Mark Jacobs & Donagh Horgan) 7. Exploring the potential of Festivals as Living Labs for Systemic Innovation (Peter Joore & Aranka Dijkstra) 8. Next to my arm-chair, as we go northward, my bed comes into sight (Catelijne van Middelkoop) 9. Prototyping for the Unknown in an Emergent Living Lab: The Case of Civic Robots (Tomasz Jaśkiewicz & Iskander Smit) 10. The Open Lab as Boundary Object (Peter Troxler & Manon Mostert-Van der Sar)

Projectinformatie (NL)

Design Dilemma's

Experimentele leer- en innovatieomgevingen, zoals living labs, fieldlabs en stedelijke innovatielabs, worden steeds vaker gebruikt om verschillende stakeholders te betrekken bij het bedenken, creëren, experimenteren, leren en uitproberen van alternatieve antwoorden op uiteenlopende maatschappelijke uitdagingen. Wat is de unieke bijdrage die toegepast ontwerpend onderzoek(ers) kan spelen en nemen in dergelijke leeromgevingen? En hoe kunnen we die belofte waarmaken? Wat zijn de uitdagingen en dilemma's waarmee ontwerpers geconfronteerd kunnen worden in hun bijdragen aan deze omgevingen? Tijdens de sessie presenteren en bespreken we hoe we door de volgende dilemma's kunnen navigeren: Open of Gesloten? Safe-zone of real-life? Fysiek of virtueel? Transformatie of evolutie? Vaste of vloeibare rollen? Discipline of Indiscipline? Huidige versus toekomstige realiteiten? Agenda: 13.00 - Inloop en koffie 13.30 - Welkom en opening 13.40 - Pecha Kucha waarbij authors bevindingen presenteren 15.15 - Interactieve discussies. 16.30 - Plenary feedback sessie en afsluiting 17.00 - Drinks!

Tracks

1. Opening and closing dynamics in/of experimental 'lab' environments (Wina Smeenck, Perica Savanović, Marieke

Zielhuis & Daan Andriessen) 2. Bridging multi-stakeholder dialogue about AI systems in the lab (Tiwánée van der Horst, Anja Overdiek & Maaïke Harbers) 3. Experimenting with Novel Knowledge - A Plea for Communities of Practice (Koen van Turnhout & Daan Andriessen) 4. The Art of Connection - Crossing borders of safe zones (Jeroen van den Eijnde & Masi Mohammadi) 5. Shaping Transitions Together? Designers Doing More Than Experimenting in Living Labs (Anja Overdiek, Janneke Sluijs, Morgan Duta & Maria Arias) 6. Ceci n'est pas une prototype - Prototypes and idealtypes as representations of what works and what matters (Guido Stompff, Mark Jacobs & Donagh Horgan) 7. Exploring the potential of Festivals as Living Labs for Systemic Innovation (Peter Joore & Aranka Dijkstra) 8. Next to my arm-chair, as we go northward, my bed comes into sight (Catelijne van Middelkoop) 9.
