## Project Information (EN)

### Soul Guidance

'A New World' is a divination performance where Giek delves into a person's soul, revealing their path in the material world. In the '5th Dimensional Tent', she delves into higher realms, revealing insight into the life lessons, talents, and purpose behind incarnation. Using channeled insights combined with applying the logic from ancient Hermetic teachings, we can transform our struggles and connect with our higher selves. This higher self, the soul in connection with everything, will guide us towards personal transformation, fulfillment, and discovering our life purpose. The ultimate goal, as part of the 'Reality Cult manifesto', is to promote self-actualization by helping individuals find their role in the ongoing global transformation and evolution amid political and ecological crises.

### Hidden Powers

Giek\_1's art, performances, and readings serve as a portal to uncover the hidden powers and profound metaphysical knowledge of the Universe. Giek\_1 inspires individuals to embrace their uniqueness and discover their authentic identity and aims to raise awareness of patterns or behaviors that may originate from trauma and assists in integrating shadow aspects from previous lives, ultimately guiding individuals closer to their true selves. Surrendering to the divine during this journey results in a cycle of death and rebirth, where individuals delve into their innermost world and realize the illusory nature of separation. This profound realization offers hope and strength amidst the confusion of our generation, ultimately prompting individuals to reexamine their own existence. <https://reality-cult.com/spiritual-guidance>

### High Priestess

Giek, a star traveler with numerous Earthly incarnations, channels art and spiritual wisdom to emphasize humanity's need to reconnect with the spiritual realm and embrace their true selves. In her current life, she combines her past-life gifts as an interdisciplinary artist, performer, composer, poet, psychic, astrologer, occultist, and healer. Her work explores self-destruction, addiction, and themes like authenticity, spiritual awakening, and self-actualization through the Laws of the Universe. Her art is both confronting and healing, prompting reflection and healing, ultimately guiding people toward self-love and transformation. Giek believes in humanity's power to manifest their dreams by embracing their Divine potential and encourages self-discovery through intuition, ancient teachings, astrology, tarot, energy healing, and occultism, uniting them to create a New World. <https://reality-cult.com/giek-high-priestess>
