

Amended 2.0

Waste not, want not.

Waste not, want not.

Hosted by: Manon Stoeltje

Project Information (EN)

"Amended 2.0" is a continuation of unique furniture pieces made of used polystyrene packaging.

These pieces are more than just furniture – they represent both usefulness and the complexities of consumer culture. By sparking discussions about material we (re)use we are encouraged to consider what these decisions say about our value systems. The Amended series keeps pushing the boundaries of waste, urging us to rethink how we relate to materials, resources and the environment.

Projectinformatie (NL)

"Amended 2.0" is a continuation of unique furniture pieces made of used polystyrene packaging.

Deze stukken zijn meer dan alleen meubels - ze vertegenwoordigen zowel bruikbaarheid als de complexiteit van de consumptiecultuur. Door discussies te stimuleren over het materiaal dat we (her)gebruiken, worden we aangemoedigd om na te denken over wat deze beslissingen zeggen over onze waardesystemen. De Amended serie blijft de grenzen van afval verleggen en spoort ons aan om opnieuw na te denken over hoe we omgaan met materialen, hulpbronnen en het milieu.
