

# RENS 2024

Studio RENS : BIG WORKS  
*Studio RENS : BIG WORKS*

**Hosted by:** STUDIO RENS

## Project Information (EN)

### Design Research

RENS is dedicated to thorough and context-specific design research. At the heart of our work lies an open-minded process of methodical observations and in-depth inquiries into colours and materials. RENS' in-depth design research is at the cradle of innovation. Our projects and collaborations with brands and labels arise from the desire to obtain new insights, unearth new possibilities and change perspectives. We focus on research and analysis, rather than the finished product or outcome. Driven by curiosity, the design process is paramount and questions are the key.

### Collection

RENS' exclusive collection mirrors our passion for colours and materials. Over more than a decade, we've created contemporary design originating from research, commissioned by companies and brands – and for our own studio collection. We are proud to present a colourful range of signature designs.
