

Blurred Objects

by UAUPROJECT

Hosted by: UAUPROJECT

Project Information (EN)

Blurred Objects are products created through explorations of desktop 3D printing potential in sustainable manufacturing. In these pieces we show the play of translucencies, colours and textures that create visually pleasant optical blurs. The shapes and

Projectinformatie (NL)

Blurred Objects zijn producten gemaakt door verkenningen van desktop 3D-printpotentieel in duurzame productie. In deze stukken tonen we het spel van doorschijnendheid, kleuren en texturen die visueel aangename optische onscherpte creëren. De vormen en tex
