

Candle, the privacy friendly smart home

At Dutch Design Week we are launching Candle, a smart home system that gives the protection of your privacy the highest priority.

Op de Dutch Design Week lanceren we Candle, een slim huis dat je privacy optimaal beschermt.

Hosted by: Candle

Project Information (EN)

Candle is a smart home of the future where protecting privacy has gotten the highest priority. At DDW we are launching a collection of devices such as smart locks, thermostats, various sensors and other 'internet of things' devices that are not just easy

Projectinformatie (NL)

Candle is het slimme huis van de toekomst waarin privacy de allerhoogste prioriteit heeft. Candle lanceert tijdens DDW slimme deursloten, thermostaten, sensoren en andere 'internet of things' apparaten, die makkelijk werken en die we écht kunnen vertrouwen
