Project Information (EN)

In the Netherlands, we approximately produce 2 million kilos of wool every year, yet most of it disappears abroad. The knowledge concerning the processing and production consequently has been lost. The unique qualities of wool are that it insulates, is ea

Projectinformatie (NL)

In Nederland produceren we jaarlijks 2 miljoen kilo wol die bijna allemaal verdwijnt naar het buitenland. De vakkundige kennis rondom de verwerking en productie ervan is verloren gegaan. Wol isoleert, is goed te recyclen, is biologisch afbreekbaar, ant
