

N.I.O.

Stop the waste, keep the fashion. Knit1 now!
Making the best possible clothing for mankind

Hosted by: New Industrial Order

Project Information (EN)

3D knitwear is clothing that is produced in one piece, without cutting, without seams and without waste. We use 3D knit machines as 3D printers to make personalised clothing on a large scale. The result: less consumption, more quality, less waste, more lu

Projectinformatie (NL)

3D-knitwear is kleding die uit één stuk geproduceerd wordt, zonder te knippen, zonder naden en zonder afval. We gebruiken 3D-breimachines als 3D-printers om op grote schaal gepersonaliseerde kleding te kunnen maken. Het gevolg: minder consumptie, meer kwa
