

Treemendo bos

Treemendo empowers people to restore forests remotely.
Met Treemendo kunnen mensen bos herstellen vanuit huis.

Hosted by: Treemendo

Project Information (EN)

This is Treemendo's first forest in the Netherlands after having successfully established forests in the UK. Treemendo allows people and organisations to co-create and restore the natural world. People plant forests through the platform. Users' virtual ac

Projectinformatie (NL)

Stel je voor, voor elke virtuele boom die jij plant wordt er ook een echte geplant. Je kunt je eigen bomen volgen in het Treemendo Bos. Dit is Treemendo's eerste bos in Nederland, in navolging van andere Treemendo bossen in het Verenigd Koninkrijk. Tree
