Project Information (EN)

As ‘users’, we are continuously modelled by digital platforms seeking a hold over our attention. Our behavioural patterns become predictable to machine learning algorithms, which are becoming increasingly sophisticated in nudging our actions. How does thi

Projectinformatie (NL)

Als ‘gebruikers’ worden we gemodelleerd door digitale platforms die er op gericht zijn om onze aandacht in de greep te houden. Onze gedragspatronen worden voorspelbaar voor zelflerende algoritmen, die steeds geavanceerder worden in het nudgen, het bijstur
