

Humanizing Technology

Rethinking the synthesizer

Rethinking the synthesizer

Hosted by: Roey Tsemah

Project Information (EN)

30 students from Design Academy Eindhoven were challenged with creating new interfaces for digital and analog synthesis of sound. This project was about escaping the traditional way we interpret electroacoustic instruments, and how we interact with them.

Projectinformatie (NL)

30 students from Design Academy were challenged with rethinking and creating new interfaces for synthesizers.
