The Power of Aesthetics and the Female Face as Battleground of Beauty

Project Information (EN)

The female face has become the focal point of female beauty. This trend is shown clearly in the many video tutorials on YouTube, in which vloggers show and instruct their audience on how to enhance their beauty by improving their facial features through

Projectinformatie (NL)

Sarah is fascinated by the modern-day standard for beauty, female cultural identity, and the representation of the latter. Through photography, film, and found footage, she questions the extent to which social media and new technology influence our percep
