

DOT

A beginning transition from past production methods to a greener future.
A beginning transition from past production methods to a greener future.

Project Information (EN)

Our approach is primarily aimed at promoting and practicing upcycling. We know that this aspect, or should we say the strategy, is only one out of many on the way to a more sustainable industry, but it represents a beginning transition from past productio

Projectinformatie (NL)

Our approach is primarily aimed at promoting and practicing upcycling. We know that this aspect, or should we say the strategy, is only one out of many on the way to a more sustainable industry, but it represents a beginning transition from past productio
