

Metamorphism : Deep Time

Project Information (EN)

This chapter of the ongoing research "Metamorphism", called "Deep Time", reflects on the notion of plastic as a nonbiodegradable “hyper object” that functions outside of the cycles of life and death. Showing a layered clock that moves

Projectinformatie (NL)

Dit hoofdstuk van het lopende onderzoek "Metamorphism", genaamd "Deep Time", reflecteert op de notie van plastic als een niet-biologisch afbreekbaar "hyperobject" dat functioneert buiten de cycli van leven en dood. Laat een
