

Pots Plus

Halfway between tree pots, benches and street furniture. Crafted with recycled plastics and robotic 3D printing.
Halfway between tree pots, benches and street furniture. Crafted with recycled plastics and robotic 3D printing.

Project Information (EN)

The 3D printed furniture have integrated planters that promote a healthy and environment-friendly lifestyle in the city. What’s more, the geometries are based on ergonomic curvatures that accommodate a relaxed body posture.

Projectinformatie (NL)

The 3D printed street furniture has integrated planters that promote a healthy and environment-friendly lifestyle in the city. What’s more, the geometries are based on ergonomic curvatures that accommodate a relaxed body posture.
