

Bioreceptive Stations

Healthy and Circular Railways
Gezonde en circulaire spoorwegen

Project Information (EN)

An initial analysis showed that travelers have their most pleasant experiences during the actual transit between stations, where they enjoy the open freedom and calm of the natural landscape. Bioreceptive Stations sets out to create a circular icon for th

Projectinformatie (NL)

Deze efficiënte CO2-absorbeers, zoals mossen, korstmossen en algen, geven een hernieuwde waarde en functie aan het beton dit ligt opgeslagen in de bestaande infrastructuur. Deze synergie tussen het gerecyclede materiaal en de regeneratieve micro-organ
