

Hollow Earth

Maria Roy <http://mariaroy.net/>

Project Information (EN)

Soil is where most things come from and where most things return. It is also a material that reveals the history of our planet. Humans have created an exploitative relationship with soil as we often work against it, rather than with it. As an attempt

Projectinformatie (NL)

De bodem is waar de meeste dingen vandaan komen en waar de meeste dingen terugkeren. Het is ook een materiaal dat de geschiedenis van onze planeet onthult. Mensen hebben een uitbuitende relatie met de bodem gecreëerd, omdat we er vaak tegen werken in plaas
