

DÖRR

A door synthesizer.

A door synthesizer.

Project Information (EN)

The synthesizer is a technology that is relatively rare, specific and that requires some quite specific knowledge to operate. It also often comes with an interface full of knobs, faders, switches, patch cables and contacts that can be rather intimidating

Projectinformatie (NL)

The synthesizer is a technology that is relatively rare, specific and that requires some quite specific knowledge to operate. It also often comes with an interface full of knobs, faders, switches, patch cables and contacts that can be rather intimidating
