

Update the Upgrade

An artificial ecosystem of plants, sun and servers. A cultivation of symbiotic approach to life and the future.

An artificial ecosystem of plants, sun and servers. A cultivation of symbiotic approach to life and the future.

Project Information (EN)

The server hosts a future market place that compiles all “future-washed” products for sale online, in real-time. The Future Market place reflects on the highly constructed images of the future imbedded in our daily consumerism and the way these condition

Projectinformatie (NL)

The server hosts a future market place that compiles all “future-washed” products for sale online, in real-time. The Future Market place reflects on the highly constructed images of the future imbedded in our daily consumerism and the way these condition
